LinkedIn: Jeevasri -LinkedIn | GitHub: Jeevasri - GitHub

Profile Summary

Recent B.Tech Information Technology graduate with a strong foundation in programming, data analysis, and business intelligence. Skilled in Java, Python, SQL, Microsoft Excel, and Power BI, with hands-on experience in developing web applications, analyzing datasets, and creating interactive dashboards. Eager to contribute analytical thinking, technical expertise, and problem-solving skills.

Skills

Programming Languages: Java, SQL, Python

Web Technologies: HTML, CSS, JavaScript

Tools: Microsoft Excel, Microsoft Power BI, Git, GitHub

Database: MongoDB

Data Analytics: Data Cleaning, Data Preprocessing, Data Analysis, Data Visualization, Dashboard Development

Experience

NSIC– Android Application Development| Intern **Dec 2023 – Jan 2024**

- Developed Android applications using Android Studio, ensuring reliable and user-friendly functionality.
- Assisted in identifying system issues and debugging applications to improve performance and stability.
- Participated in testing, optimization, and implementation of application improvements.

Projects

Skill Barter: A Skill Exchange Platform| Demo

- Developed a session-based learning platform that enables users to exchange skills without monetary transactions.
- Implemented user progress tracking and session management to improve learning engagement.

LinkedIn Job Market Analysis Dashboard |Demo

- Analyzed a real-world LinkedIn job postings dataset using python and SQL and developed an interactive Power BI dashboard with connected visuals.
- Performed data cleaning and preprocessing using Python (Pandas) by handling missing values, removing duplicates, and standardizing inconsistent data fields.

TNOpportune: A Personalized Eligibility Based Job and TN.Govt Scheme Finder | Demo

- Developed a web application that analyzes user eligibility data (age, education, income, community) to recommend relevant government schemes and jobs.
- Implemented filtering and eligibility logic to improve recommendation accuracy and simplify access to public services.

Publications

- Enhancing Cancer Classification in Genomic Data: A Hybrid Approach Using Principal Component Analysis and Machine Learning Techniques - IITCEE 2025.
  DOI: 10.1109/IITCEE64140.2025.10915244
- TNOpportune: A Personalized Eligibility-Based Job and TN.Govt Scheme Finder – ICSETI 2026.
  DOI: 10.1109/ICSETI67678.2026.11636767

Education

Velammal College of Engineering and Technology, Madurai **Nov 2022 – May 2026**

B.Tech Information Technology CPGA: 8.1/10

Certifications

Oracle SQL | AWS Fundamentals Specialization | Cybersecurity for Beginners - Microsoft
