Profile Summary

Recent B.Tech IT graduate skilled in Java, Python, SQL, software testing, data analysis, Power BI, and UI/UX design. Experienced in developing web applications, executing test cases, identifying bugs, analyzing datasets, and designing interactive dashboards. Eager to contribute technical and problem-solving skills to an entry-level IT role.

Skills

Programming Languages: Java, SQL, Python
Web Technologies: HTML, CSS, JavaScript
Tools: Microsoft Excel, Microsoft Power BI, Git, GitHub, Jira, Trello, Figma
Database and Testing: MongoDB, Manual Testing, Automation Testing, Test case Design
Data Analytics: Data Cleaning, Data Preprocessing, Data Analysis, Data Visualization, Dashboard Development
AI & RAG: Retrieval-Augmented Generation (RAG), LangChain, FAISS, Sentence Transformers, Groq API

Experience

NSIC– Android Application Development| Intern **Dec 2023 – Jan 2024**

- Developed Android applications using Android Studio, ensuring reliable and user-friendly functionality.
- Assisted in identifying system issues with testing and debugging applications to improve performance and stability.

Projects

Skill Barter: A Skill Exchange Platform| Demo

- Developed a session-based web application using HTML, CSS, JavaScript, Node.js and MongoDB; performed manual testing, test case execution and defect reporting using Excel, Jira and Trello.

TestGen AI – RAG-Based AI Test Case Generator | Demo

- Developed an AI-powered test case generation application using Python, Retrieval-Augmented Generation (RAG), FAISS, Sentence Transformers and Groq to extract requirements from SRS PDFs, generate test cases and export results to Excel.

LinkedIn Job Market Analysis Dashboard |Demo

- Analysed 35K+ job postings using Python, Pandas and SQL; performed data cleaning and preprocessing and developed interactive Power BI dashboards for employment trend analysis.

TNOpportune: A Personalized Eligibility Based Job and TN.Govt Scheme Finder | Demo

- Developed a web application using Node.js, Express.js and MongoDB to implement eligibility-based filtering and recommend relevant jobs and government schemes based on user profiles.

Velora: Fashion Shopping App Prototype | Prototype

- Designed an 11-screen interactive UI/UX prototype using Figma, incorporating user flows, interactive navigation and shopping features.

Education

Velammal College of Engineering and Technology, Madurai **Nov2022 – May 2026**
B.Tech Information Technology CPGA: 8.17/10

Certifications

Oracle SQL | AWS Fundamentals Specialization | Introducing SAP ABAP Fundamentals | Automation Testing Basics | Software Testing With Generative AI | Career Essentials in Generative AI
